

CLASS TEST: ADVANCED GEMINI FEATURES

Practical AI with Google Gemini and NotebookLM | Chapter 2: Deep Research, Live, & Gems

NAME: _____ DATE: _____ SCORE: _____ / 10

Answer the following questions based on Chapter 2. Focus on the practical application of Deep Research, Gemini Live, and Custom Gems.

Q1. What is "Gemini Deep Research" and how does it differ from a standard AI query?

Q2. What are the three stages of the Deep Research workflow?

Q3. When delegating to Deep Research, why is it important to define "Sources" or "Search Parameters"?

Q4. Describe "Gemini Live." What is its primary use case for task management?

Q5. What is the main difference between "Voice Mode" and "Camera Mode" in Gemini Live?

Q6. What are "Gemini Gems" and what problem do they solve for repetitive workflows?

Q7. When building a Gem, why are "System Instructions" critical for reliability?

Q8. What is "Nano Banana" (Imagen 3) and what are its primary strengths in content creation?

Q9. How does "Veo" complement the creative workflow alongside image generation tools?

Q10. Why is the "Refinement" phase (polishing instructions) necessary after creating your first Gem?
