

CLASS TEST: AI PRODUCTIVITY

Practical AI with Google Gemini and NotebookLM | Chapter 1: Getting Started

NAME: _____ DATE: _____ SCORE: _____ / 10

Answer the following questions based on the course materials. Be specific in your descriptions of frameworks and workflows.

Q1. How does the course distinguish Gemini from a standard search engine?

Q2. What are the three core capabilities of Gemini as described in the introduction?

Q3. What is "AI Workslop," and why is it considered a professional risk?

Q4. Describe the "Email Test" used to evaluate AI output.

Q5. Into which two categories should you split your tasks when delegating to AI?

Q6. In "High-Value Tasks," what is the primary role of AI in relation to the human worker?

Q7. List and define the three key components of a structured prompt.

Q8. Why is "Context" specifically considered the most powerful element of a prompt?

Q9. What is "Gemini Canvas" and how does it change the standard chat workflow?

Q10. List the five specific steps of the Gemini Canvas workflow.
